The prize-money has been kindly sponsored by

Other top 5 exhibits:

- 👉 Bio-inspired artefacts for neuroscientific studies on locomotion and new technology (LAMPETRA)
- 👉 Rigorous engineering of service-oriented software (SENSORIA)

The Science beyond Fiction Exhibition

- 👉 Check the [future technologies on show at the exhibition](#).
- 👉 View the [exhibition floor plan](#).

The **Science beyond Fiction Exhibition** will demonstrate the potentialities, the diversity and the importance of foundational long term research in future ICT in Europe. It will present a mix of impressive achievements as well as of early stage results, ideas and prototypes.

It will illustrate the wide variety of disciplines, technologies and domains involved in future and emerging information technologies to a target audience that will bring together a broad set of scientific communities, key policy makers as well as industrial and societal stakeholders.

The exhibition will feature the latest t(h)ink(er)ing from the research labs. Around 30 stands will be present.
